FIRST**

About Us

MESPL is reliable, efficient and transparent pump & spares company that offer its customer wide choice of positive displacement pumps system and customized solutions. We are committed to excellence in customer satisfaction with our range of solutions and customer support.

In MESPL, we combine our technical knowledge, application expertise and product experience to help our customers find optimum solution for given parameters and budget.

We let our customers take informed decision by supporting them with requisite information about potential pumping solutions.

MESPL not only help customer chose the right pumping solution but also ensure that it is installed as per requirement and maintain the pump for its life time.

We offer retrofit spares for all major brands of PC Pump and have capability to develop new spares for specific customer requirements.

MESPL Retrofit Spares – Features & Benefits:

FEATURES

CUSTOMER FIRST APPROACH:

Offer complete range of spares as a single point solution.

ROTOR-STATOR:

Interference is designed at optimum level.

COMPLETE SERVICE SUPPORT:

Customer gets complete value for money

VALUE ADDED SERVICES:

Additional benefits than just being a spare supplier

BENEFITS

- No Dependency of multiple vendors.
- No Conflicts in problem solving.
- Better inventory planning.
- Easy to work with single vendor to further enhance pump performance.
- Improved performance in terms of life and efficiency
- No motor overloading
- Improved reliability of spares life
- Lower maintenance cost without any compromise in performance
- Lesser maintenance intervention in pumps
- Better inventory planning
- Technical support in term of application engineering can be provided, if required
- Spare parts can be developed for specific customer requirements eg. bearing housing etc.

Customer Support

We work with our customer more as a partner than a simple vendor thus aligned ourselves to customer specific requirements e.g. faster delivery supports, stock keeping, technical support to maintain long term relationship.

MES offer retrofit spares for all major brands of PC Pump with an aim to offer its customers the value for their money.

Our retrofit spares do not compromise on performance or life and still deliver economic benefits to customers with smooth purchase experience.

We believe in offering complete set of spares to ensure that customer does not have to look for multiple suppliers to keep the pump in good health.

MESPL Promise

- Will help customers take informed decision
 - Will offer best value for money
- Will offer best possible technical support/ guidance.
- Willingness to offer customized solutions as per customer requirement.
